The legalization of the signature of each seaman in the crew roll (in and out) is mandatory only in the cases where an Official Crew Roll Book is used on board. E. Officers Licenses and Seamen's Fonts

F. Legalization

There are certain books and documents that need to be legalized by Panamanian Consuls. There are, however, many others which do not require this legalization such as, for example, valid Patentes, Radio Licenses, Officers Licenses and Seamen's Cards, Technical Certificates as well as the Panama Tonnage Certificates.

* Note: Consuls may legalize any document or book and charge for it whenever it is necessary and/or requested by the Master of the vessel.

G. Detention of Vessels

Only the Directorate of Consular and Maritime Affairs can request the detention of Panamanian flag vessel. In doing this, the Administration could authorize a Panamanian Consul abroad to request the official detention. It is important to note that without this authorization a detention cannot be carried out.

H. Safety Inspections

The annual safety inspections of Panamanian flag vessels is the responsibility of the New York Office of the Directorate of Consular and Maritime Affairs. These inspections are carried out by authorized inspectors of the Merchant Marine Having the necessary background and experience. Only these inspectors can perform these duties. Without the express authorization of this office the annual safety inspection cannot be performed.

It should also be noticed that this inspection is carried out annually unless otherwise required.
